

## PRODUCT BULLETIN

*Wrabacon, Inc.* designs and manufactures a wide variety of quality and innovative custom product handling systems. These include Product Feeders, Pick and Place Systems, Product Merging, Product Dividers, Product Stackers and Destackers, Semi-Automatic Case Erectors, Product Accumulators, Container Handling, Tray Stackers, and Conveyors.

### Two Pound Jar Case Packer

Wrabacon designed and manufactured an automated tray packing line to receive 2 lbs plastic jars at a rate of 120 jars per minute. The system is designed for easy change over so that a pattern of 2 x 3 or 3 x 4 could be picked. The pick and place system collates the jars into the desired to pattern. Once the pattern is established a tray is introduced into the system, the tray is stopped and the pick and place system picks up the pattern and deposits it into the tray. The tray is then released to a shrink wrapper.
