

PRODUCT BULLETIN

Wrabacon, Inc. designs and manufactures a wide variety of quality and innovative custom product handling systems. These include Product Feeders, Pick and Place Systems, Product Merging, Product Dividers, Product Stackers and Destackers, Semi-Automatic Case Erectors, Product Accumulators, Container Handling, Tray Stackers, and Conveyors.

HIGH SPEED VISION SYSTEM FOR HORIZONTAL BAGGER

Wrabacon designed the mechanical mounting and software for a vision system to inspect and verify date code, bar code and OCR of the bar code on individual bags for this high speed vertical bagger. The bags passed the vision system at the rate of 110 bags per minute. The bags are 4 ¾ inch wide x 8 inches long and were printed via ink jet prior to the vision system. Wrabacon provided all mechanical set up, vision system and software, along with a system control panel.
